## HILLGREST MINES

LOTS ON THE Hood Addition ARE NOW ON SALE And Going Fast

WHY? Because they are the Biggest Lots in the District! The Best Soil and Spring Water right at the door. These Lots are almost Twice as Big as any other Lots, and therefore they are just twice as cheap. Everybody comes to the HOOD ADDITION for a good drink of spring water, and a good view of the beautiful surrounding country.

Now is the time to get in on the Ground Floor in the Best Mining Camp in Alberta

"It is a pleasure to tell you Chum-bertonia (Cous. Kennedy) is the best enough undoes I have ever used." writes Mrs. Hugh Campbell, of L...

Yonka, Ga. "I have used it with all my children and the results have been highly satisfactory. For sale by all dealers."

## Happenings in and Around Bellevue

Donald Mackay and family left on Monday night for Brasau.

Robert Connolly has returned from a visit to Pincher Creek. Dr. MacKenzie is having a wing added to the hospital building.

The warehouse being erected by Steve Humble is nearing completion.

Vice-president Jones, of the U. M. W. of A. was in the camp on business this week.

Miss Mary Bolech was down from Lundbreck visiting her parents over the week end.

Thor Bradley, driver-boss in the mine, has resigned his position and will leave these parts.

Mr. and Mrs. Andrew Goodwin gave an At Home to many of their friends on Thursday evening.

There is splendid skating on the lake and the younger life of Bellevue are taking every advantage.

Edward Bridge has taken over the position formerly held by Donald Mackay as pit boss of No. 1 mine.

Michael Kilday and family left on Sunday evening for Beach Creek, where they will settle on a homestead.

Maxie George Elmer gave a birthday party on Friday, and many of his young friends spent an enjoyable evening.

Mr. Miller, father of Walter Miller, who has been visiting here for about two months, left for England on Saturday evening.

The ladies of the Methodist church are making preparations for a sale of work to take place in the socialist hall on Tuesday, December 17th.

The second annual memorial service for the victims of the Bellevue mine disaster will be held in the Socialist hall on the afternoon of Sunday, December 6th.

We are pleased to hear that the condition of Wallace Rayner is rapidly improving. He is staying with his brother, Jack, at Cranbrook, and we look for him back in the near future.

It is proposed to organize a debating society in Bellevue, and a meeting is called for Thursday night in the church for that purpose. All interested are urged to attend.

Rev. W. H. Irwin returned on Saturday from a trip to Toronto and other eastern points, where he had been visiting in the interests of the Methodist work in the Crown's Nest Pass.

The meetings of Local 431, U. M. W. of A. will henceforth be held on the first, third and fifth Monday nights in the month, to commence at 7.30 p.m., instead of Sunday mornings as formerly.

The Leap Year dance given by the ladies in the socialist hall on Halloween night was a big success. Men were admitted free and of course they were all there. The charge placed upon ladies did not keep them away. The Bellevue orchestra supplied music.

Bellevue mine was closed down for two days last week over a dispute between Local 431 and the mine management over the discharge of two men because of a dispute, which they had with one of the fire-bosses. After a conference between the officials on both sides, the dispute was amicably settled and work was resumed on Saturday morning.

The boys of the town celebrated Halloween by making themselves, as usual, a general nuisance, and they are able to take lots of fun out of that, which goes to show that still 'boys will be boys.' Many a good housewife who found

## At The Hotels

The following were among those registered at the Comptonian during the week: W. Bolton, G. V. White, D. R. O'Neill, A. E. Fitzgerald, D. H. McLeod, E. McNair, D. S. Knox, G. McKerracher, J. Graham, Chas. Wilkerson, Toronto; Chas. G. Merrick, Lawson, J. D. Young, S. W. Richards, Winnipeg; K. Butterfield, Creston; J. H. Telford, W. S. Bates, D. R. Thomas, W. H. DeLong, A. J. Bliss, E. Gullibault, Lethbridge; J. J. Brown, Cranbrook; J. O. Jones, Hillcrest; D. J. Elmer, Victoria; H. A. Parker, Coakman; J. Colvin, James A. Black, J. W. Carlie, H. Thomson, Vancouver; Hal Salter, W. Anderson, Indian Head; F. J. Woodcock, Medicine Hat; W. D. Gardner, Edmonton.

At the Blairmore the following registered this week: Mrs. W. May, Monna Jay, M. Housley, H. Brown, G. W. Robinson, George Cleland, Cowley; Colin Macleod, D. G. Wilson, M. L. Jordan, Macleod; Ben Jarvest, Arch. Johnson, Calgary; R. E. Lowe, Edmonton; A. W. Barnes, Banbridge; Arch. G. Smart, Winnipeg; E. D. Benson, Stanley; Frank Shultz, Taber.

At the Rocky Mountain Sanatorium during the week were the following: Charles H. Walters, F. J. Woodcock, Medicine Hat; W. H. Hay, James McLeod, Frising; L. J. Lorr, Chicago; T. D. Brown, W. S. Bates, E. Gullibault, and wife, F. Aspinall, Lethbridge; W. M. Steel, Pincher Creek; G. E. Saylor, London; F. E. Wilson, Dubuque; J. G. F. Snowden, W. H. Bolton, W. F. McNeillie, D. R. O'Neill, A. O. Wilson, P. P. Chalour, A. A. Kennedy, B. Bertrand, Calgary; J. B. Wood, Winnipeg; W. W. Rush, Vancouver; Colin Macleod, Macleod; Mr. Potter, G. McGarrigher, J. H. Pagan, D. J. Smith, Winnipeg; J. D. Taber, Montreal; H. G. Macleod, Calgary; J. H. Macleod, Calgary; Coleman; H. G. Benson, D. Lewis, City of Blairmore; F. W. Johnson, Miss Milligan, Regina; J. Matheson, Swift Current; J. E. Osmond, Detroit; Angus Campbell, Seattle; R. J. Chambers, H. B. Hinelein, Bellevue; James McArdle, Grand Forks; M. Bosanly, Hosmer; Mr. and Mrs. Langham, Edmonton; John J. Burns, Pittsburgh.

## City Planning Convention

There is to be a city planning convention held in Edmonton on November 15th and 16th. Mayor George Armstrong, of Edmonton, is vice-president of the city planning and housing association of Canada and it is through his initiative that the convention has been called.

Every city and town in Alberta has been invited to send delegates to the convention and a large attendance is expected and particularly desired since the convention energies will be strongly directed toward securing legislation that will enable cities and towns to control the disposition of land and buildings in and about the several communities in such a manner as will lend itself to growth along good lines. Such legislation as this has been adopted by Nova Scotia and New Brunswick and, to some extent, by Ontario. A bill looking toward a like end is being prepared by the city planning commission of Winnipeg and the Edmonton convention will take up the work with all of this as a guide.

The proposition is an important one particularly at a time when so many Alberta cities and towns are in a formative stage and where so much of future development along economic and thoroughly good lines depends upon what is done now.

her clothes hang down or outstretched damp the next morning took comfort in the fact that perhaps "when we become men we will put on a pair of trousers."

## Happenings in and Around Frank

The sermon subject at the Methodist church on Sunday night next will be "Infidelity to the Bible."

A grand dance will be given at the Rocky Mountain Sanatorium on the night of Wednesday, November 20th, for which a large number of invitations are being sent out.

The work of preparing the rink for the approaching season has commenced. Frank hopes to be able to boast of the best rink and hockey team in the Crown's Nest this season, and they're not talking through their hats.

A large congregation attended the Methodist church on Sunday night to hear the Rev. W. T. Young's discourse on "I've won't give a religious attitude suddenly, or do we grow into it?" At the close of the service an interesting discussion took place.

There could be no better medicine than Chamberlain's Cough Remedy. My children were all sick with whooping cough. One was in bed, had a high fever and was coughing up blood. Our doctor gave them Chamberlain's Cough Remedy and the first dose eased them, and the bottles cured them," says Mrs. R. A. Donaldson, of Lexington, Mass. For sale by all dealers.

A branch of Department of Extension of Alberta University was organized in Frank on Tuesday night. Rev. W. T. Young was elected president, H. D. Mackay, secretary, and Messrs R. Atchison, S. H. Jones and F. Allot as committee. Both this branch and the skating rink will be conducted by Young Men's Club. The subject for debate at the first regular meeting on Thursday night next will be "Woman's Suffrage," and a good time is expected.

## Coleman Notes

The Lord Bishop of Calgary will begin Coleman on Sunday next and administer the sacrament of Confirmation at the 11 a. m. service at St. Alban's church. His Lordship will also preach at night service.

A pretty wedding took place on Saturday evening last, when Thomas Boyle and Mrs. H. Greenwell were made paddle through life together. Rev. T. M. Murray fastened the knot securely.

Work on the new parish hall in connection with St. Alban's church is progressing well under the supervision of the rector, Rev. D. Watkins-Jones. It is hoped to have the building ready for use as a reading room, etc., by the end of the year.

Is your husband cross? An irritable, fault finding disposition is often due to a disordered stomach. A man with good digestion is nearly always good natured. A great many ways have been permanently cured of stomach trouble by taking Chamberlain's Tablets. For sale by all dealers.

## O'Brien's Dates in B. C.

C. M. O'Brien's meeting at the Empress Theatre last Sunday evening was a bumper house, and the Alberta socialist member handed out one real dollar in the way of economics. During the week Mr. O'Brien has been speaking at Vancouver Island points. His literary has been considerable, shortened because of the early meeting of the Alberta legislature. Following are his closing dates in this province: Gilson's Landing, Tuesday, Nov. 5; East Collingwood, Tuesday, Nov. 7; Newport, Friday, Nov. 8; Salmo, Arden, Tuesday, Nov. 12 - B. C. Federation.

Dr. D. Warnock, M. P., visited the Pass town this week.

The taxpayers of Blairmore of \$16,000 for the year of the borrowing of \$16,000 for waterworks extension.

Bellevue, Alta., Fri., Nov. 8, 1912

It is up to the sport-loving community to support and encourage the hockey team. It is generally the close-fisted growler who sees the team's lackings, while the staunchest supporters pride most in their efforts.

Complaints about the present light-system of east Blairmore are now in order, and the chairman of the light committee is puzzled to know which is easier, to keep check of the candles the lights are on, or the hours they are off. Anyway, subscribers are paying for and entitled to a better service.

An attempt to boycott certain travelling opera companies through Alberta and B. C. is the latest method to come to the knowledge of theatre-goers, and that such a feeling towards the producers of high-class educational entertainments exists is readily to be regretted. It is hoped that parties to such a movement will see the error of their ways very soon, and that no barrier will be placed in the way of the travelling opera companies, since it is a fact that very few of the smaller towns of the provinces can produce the necessary local talent.

#### Blairmore School Report

The following is the report of the Blairmore public school for the month of October.

The school was in operation 22 days during the month. Total number of pupils enrolled for the month, 207.

Grade I, Part 1—Number enrolled 41; aggregate attendance 938; average attendance 39; percentage of attendance 70.3; number of lates 20. Miss M. E. Muir, teacher.

Grade I, Part 2—Number enrolled 32; aggregate attendance 584; average attendance 26; percentage of attendance 81; number of lates 25; none either absent nor tardy. Janette Thibodeau, Winnie Christopher, Catherine Lyon, Janice Nimra, Tommy Miller, Elizabeth McLeod, Vernon Hunter, Arthur Boyd, Duncan Ford, Bertha M. Richardson, teacher.

Senior Grade I and II—Number enrolled 39; aggregate attendance 791; average attendance 35; percentage of attendance 92.17; number of lates 13; those neither absent nor tardy. Nora Shonett, Katie Moxin, George Lyon, Norma Robertson, Charlie Howe, Francis Stange, Lucy Hinds, Russell Vincent, Fred Nichols, Marion Ennis, Franklin Simpson, Handley Jones, Sabre, Lillian Evans, Wilfred Duff, Mabel K. Kelsey, Lillie M. Perkins, teacher.

Grades III and IV—Number enrolled 47; aggregate attendance 950; average attendance 42.29; percentage of attendance 89.97; lates 15. Miss K. B. Parrach, teacher.

Grades V, VI and VII—Number enrolled 34; aggregate attendance 32.07; percentage of attendance 94.32; lates 10. Miss E. M. Fulton, teacher.

Grades VIII, IX and X—Number enrolled 14; aggregate attendance 299; average attendance 13.14; percentage of attendance 93.84; lates 15.

It will be seen that not one of the rooms has succeeded in winning the half holiday for November while in three rooms the percent-

age of attendance has gone below ninety-one, which is the standard required by the department. We would again urge upon parents the advisability of seeing that their children attend regularly and punctually.

J. W. VERGE, Principal.

#### Allen Players

##### Well Received

The Allen Players filled a three-night's engagement at the Blairmore opera house last week, and without any exception their bills were the very best ever produced before a Passa audience. Their production of "The Girl from Texas" on Thursday night involved all that was possible in talent, and all the different characters performed excellently well.

On Friday the bill, "Nihil Gwynne" was put on. In this Miss Felton proved at her best and the entire production was of the very highest character.

How Baby are You? drew a crowded house on Saturday night and needless to say no one left the theatre at all displeased for their attendance. The entire audience were kept in roars of laughter from beginning to end, and especially so were the impressions of Mrs. P. R. Allen, Miss Felton, Miss Huls and Walter Mylton, and the display of ballet, all heirs to Blairmore, was unique.

The Allen Players carry with them the Royal Hungarian Stig music, and their musical accomplishment is indeed worth the admission. Every one who attended the different shows spoke in highest terms of the plays and the musical accompaniment and when the Allen Players make their next visit here in January or February next, they may feel assured of bumper houses.

#### Provincial Sunday

##### School Convention

November 12-14, 1912 are the dates of the eleventh annual Sunday school convention of the Alberta Sunday School Association which will be held in the City of Calgary, in the First Baptist Church corner of 13th Avenue and 10th St. West.

Eighteen of the ablest speakers on Sunday school themes will take part in the convention.

The work of the association is strictly interdenominational, and delegates from every evangelical Sunday school will be welcomed at the provincial convention.

Delegates are requested to purchase a single fare ticket to Calgary, and to ask the ticket seller for a standard certificate, which will be presented at the convention office, exhibited and returned to the delegate, who will present it at the ticket office in Calgary, and receive a return ticket free.

#### Printers' Pi

The make-up man in a rural weekly newspaper office got full of hard cider a fortnight ago and mixed up lines reporting an auction sale and a wedding ceremony. The description ran as follows:

"Charlie Blank the only son of Mr. and Mrs. Joseph J. Blank, was disposed of at public auction to Margaret Dash, daughter of Mr. and Mrs. Dash, of lot four, six h, eight, in the presence of eighty guests, including two mules and nine head of horned cattle. Rev. J. Binks into the nuptial knot, averaging 1,200 pounds on the head."

"The beautiful horse of the bride was very lustily decorated with one set of harness, nearly new; before the ceremony Maudslough's wedding march was given by twenty-one year old girl, causing a looking wagon, top buggy, open buggy and wheelbarrow. The groom is a well-known young man, popular in society circles."

"Among the many presents were four hundred bushels of potatoes, one drag harrow, bay fork, rope and pulleys, and other articles too numerous to mention."

#### Happenings in and Around Blairmore

M. Boswell of Homer, B. C., was in town this week.

W. C. Robinson was in town from Cowley last week end.

D. J. Elmer, Victoria, B. C., spent several days in town this week.

Remember the meeting at Wonderland theatre on Sunday Nov 10 at 9.15 p.m.

We are pleased to report that Miss Frayer is fast recovering from her recent accident, and will very soon be about again.

The Allen Players left for Lethbridge Sunday night, where they have an engagement of eight nights at the Morris Theatre.

Mrs. Martin, sister of Thomas Frayer, arrived from Winnipeg the only part of the work, to expect a short while with her brother.

W. A. Berbe returned on Monday night from Calgary whither he had been on business in connection with the proposed street railway.

The work of brick-venering the Blairmore opera house commenced this week. It is hoped to have the work completed before the setting in of severe weather.

C. Bryce Miller has circulated bills this week, amounting to a big amount of farming utensils, harness, etc., to be held at Cowley on Sunday, the 10th inst.

See the special offer of a complete satin-wind dining room set in the window of the Blairmore Furniture Store. Regular price is \$17.00; this week only \$10.00 for cash.

Edwin Stokely, charged with the murder of his brother, Frederick Stokely, at Milk River, in July last, was convicted at the Lethbridge assizes last week, and sentenced to hang on January 24th inst.

Rev. J. Maclean Beaton, who for the past several months has had charge of the Presbyterian mission work in Blairmore, left this week for northern points. We understand that Mr. Beaton has declined to accept the call to the parish here.

The work of brick veneering the hall had been about completed, and the front of the building has been given a finishing coat of paint, which is indeed a decided improvement. The brick work was done under the supervision of contractor Fox.

We like to boost a bit whenever an opportunity offers, but shun the idea of exaggeration. The Greenwood Lodge (through a typographical error, of course) in commenting on the introduction of the Keystone Cement Co. into Blairmore, made the statement that the plant would have a daily capacity of "1000 tons."

A special feature "Odyssey of Homer" was the attraction at the opera house on Tuesday night. "Odyssey" represents the most wonderful achievements in moving pictures, and was secured for Blairmore at considerable expense.

The police had their hands full (and occasionally their arms full) on Saturday night last. The corners of the cage were so well filled, at times that some of the birds were allowed liberty to hike for lower quarters, upon forfeit of a few "bits."

Remember the services in the Central Baptist church next Sunday. The morning subject will be "The Successful Way." The evening subject "The Good News." The subject at the Wonderland Theatre "The Golden Boys of Men." The meeting at Wonderland theatre will begin at 9.15 p.m., and will be short and bright.

The biggest party left on yesterday's morning's boat on an extended trip, six months on approved joint note, four per cent off for cash.

The application will be considered by the Board of License Commissioners at a meeting to be held in the License Branch office, 309 Eighth Avenue West, Calgary, Alberta, on Thursday, November 22nd, 1912, at 10 o'clock A.M.

**DATED AT EDMONTON this 29th day of October, 1912.**  
L. F. CLARRY,  
Deputy Attorney General

Peter Patterson returned from Fernie and other points west on Saturday, whither he had been on real estate and other business.

The racial given in the mission hall on Thursday night last (Hal- lowe'en) was well attended, and a very enjoyable evening was spent.

Saturday was pay-day for the men working on the government roads, and a big bunch of money changed hands through the Royal Bank.

George Cleland came to town from Cowley on Monday, and returned to the prairie burg on Tuesday night.

The demerol which figured in the runaway accident a few weeks ago, in which "Zeke," the red-head boy, of Hillcrest, and a partner whose winsome manner drew his attention away from the reins

# FREE IF YOU CAN SOLVE THIS PROBLEM FREE

As an advertisement we will give these awards absolutely and unconditionally free to the persons sending in the nearest correct solution of the "TWENTY-ONE PROBLEM." There is positively no lot or chance connected with the solution of this problem. It is a contest of skill. The nearest correct solution of the problem will be awarded the Piano, and the other awards will be distributed in the order of merit. Everybody who sends in a correct solution will be awarded a prize.

<b>First Award</b> A Beautiful, Dainty Upright Piano <b>VALUE \$425.00</b>		<b>Fourth Award</b> A Beautiful Violin complete with case
<b>Second Award</b> A \$375 Upright Piano FOR \$125		<b>Fifth Award</b> A Handsome Guitar complete with case
<b>Third Award</b> A \$375 Upright Piano FOR \$150		And 88 Additional awards to the next 88 Nearest Correct Solutions

**DIRECTIONS:**—Take the numbers from 3 to 11 inclusive, and place them in the squares so that when added together vertically, horizontally and diagonally, the total will be TWENTY-ONE. No number can be used twice. Use this or a separate piece of paper or material.

The gentlemen who have consented to act as Judges are a guarantee that the awards will be distributed to those who are entitled to them.

In case of a tie, the Judges being unable to decide between any two solutions, each will receive equal awards.

## PILED IN THE PILLS.

Barnum Jessup, Bellevue 228343.

Twenty Years.

People were greatly attracted to patent medicines 100 years ago, and a case that is told in the history of the land gives some idea of the pill taking propensities of the time. An apothecary sent one Barnum Jessup, now nearly a century old, a box of pills of a long standing account. The bill extended to fifty-five closely written columns and showed that in twenty years he took 220,000 pills, beginning with the modest number of twenty a day and increasing by easy stages to a daily consumption of seventy-eight. During the twenty years he consumed 40,000 bottles of mixtures, besides pills, elixirs and other infallible specifics. The apothecary was the day, but Jessup died soon afterward at the age of sixty-five, not a whit from stopping the medicine.

In the advertisement of their wares the eighteenth century quick medicine proprietors were quite as resourceful as the modern representatives of their craft.

Dr. James Fowler, a publisher and managed to make one branch of his business a specialty of inducing his authors—including Goldsmith—to suffer references to the powders throughout the pages of their books.

Think, in "Gleady Two Shows," the heroine's father "perished miserably" because so unfortunate as to be "wielded with a fever in a pillow where Dr. James Fowler was not to be had."

## PRICKLY PEARS.

Eat Them as Indians Do If You Like.

Their Peculiar Fruit.

Nobody but an Indian knows how to eat a prickly pear. The fruit grows on the edge of a thick green oval and betrays with myriads of sharp spines, sharp as needles, which grow on its ribs. Though they cannot be seen with the naked eye, they can certainly be felt, as any one who has tried the fruit knows.

The fruit is eaten by the Indians in a peculiar manner. They first cut off the top of the fruit, and then, with their hands, they peel off the skin, and eat the fruit.

When an Indian wants to eat it, he cuts a small stick, sharpens it and thrusts the point into the ripe fruit, slicing off the pear with a single stroke, and holding it on the stick, he peels it, taking care to avoid touching the skin with his fingers. He then eats the fruit from the ground to the utter sorrow of any barefoot boy who happens to step on it.

A liking for cactus fruit may be acquired, like the taste for poplar, but it is not likely to rival the enthusiasm or even the humble gratefulness for poplar fruit. It resembles cranberries, and is eaten moistened with water, mixed with sweetened and cold and sprinkled with brown sugar, or with lemon juice and a dash of guano. Any one who tastes it once is satisfied to let the Indian gather the entire crop.

New York Press.

Let us try to be sensible. Let us try to be good natured. Let us try to be fair.—Charles Dickens

He May Escape.

"I think," said the young statesman, "that none of my speeches will be recalled with interest by the nation. If they will," replied Senator Spooner, "unless you are exceptionally lucky."—Washington Star.

Slashing Him Up.

Mistakenly—Why do you look at me so intently?

Caution—I am the food inspector.—Buffalo Commercial.

Why Should I Use Cuticura Soap?

"There is nothing the matter with my skin, and I thought Cuticura Soap was only for skin troubles." True, it is for skin troubles, but its great mission is to prevent skin troubles. For more than a generation its delicate emollient and prophylactic properties have rendered it the standard for this purpose, while its extreme purity and refreshing fragrance give to it all the advantages of the best of toilet soaps. It is also invaluable in keeping the hands soft and white, the hair live and glossy, and the scalp free from dandruff and irritation. While its first cost is a few cents more than that of ordinary toilet soaps, it is prepared with such care and of such materials, that it wears to a wafer, often outlasting several cakes of other soap, and making its use, in practice, most economical. Cuticura Soap is sold by druggists and dealers everywhere, but the truth of these claims may be demonstrated without cost by sending to "Cuticura," Dept. 7M, Boston, U. S. A., for a liberal sample cake, together with a thirty-page book on the skin and hair.

## ILLITERACY IN OUR LAND.

Census Statistics Show That It is on the Increase.

The census statistics for 1910, now published, are very encouraging, while having much to be desired in every section of the country.

In every section of the country the proportion of those ten years of age and over who cannot read has increased since 1900.

In the census test of illiteracy, has been reduced since 1900. It has fallen from 24.6 to 17.4 per cent in the male illiterate section, the east south central states. It has fallen from 41 to 29.9 per cent in the most illiterate section, the west north central states. It has fallen from 56.7 to 47.7 per cent for the whole country.

New York, with its great food of illiterate stands at 1900 with 30.4 per cent. Connecticut alone of all the states has lost ground, its illiteracy proportion now being 6.2 against 5.9 per cent in 1900.

Louisiana now leads in illiteracy, as in 1900, but the proportion is cut from 38.5 to 29 per cent, while Iowa, which tied with Nebraska for first place in illiteracy in 1900, now leads Nebraska and all the other states with a proportion of 17.

If immigration affects adversely the standard of the northeastern states, the negro population still holds back the south. But here there has been a noticeable advance. Over 60 per cent of Louisiana's colored population ten years of age and over were illiterate in 1900, now the proportion is 50.7, a reduction of negro illiteracy since 1900 in the south Atlantic states is 1000 from 47.1 to 35.3 per cent, in the east south central from 40.2 to 24.8 per cent, and in the west from 30.4 to 24.6 per cent.

46 to 33.1 per cent.—New York World.

SPANKING BAD KOREANS.

Official Rules Under Which the Punishment is Applied.

The Official Gazette contains an administrative order giving minute directions as to the proper application of the cane of corporal punishment in the Korean Peninsula.

The culprit shall lie on his stomach, his hands stretched out above his head and fastened. Straps are to be passed around the body and round the head and feet, with the clothes so arranged as to expose the back.

The executioner shall stand with his whip at arm's length, the tip protruding three inches over the edge of the prisoner's body. The executioner's left hand must be on his left side, palm upward, and right foot in advance and bearing the weight of the body.

The stroke is to be delivered perpendicularly, and the skin is under no circumstances to be broken. The punishment is to be taken one hour after a meal, and the prisoner, if he requires refreshment, shall be given a glass of fresh water.

The notice has provided the boys press with an opportunity for displaying their wit. It is suggested that Mr. Tammam, minister of the interior, should obtain something toward covering the deficit in the budget by making the spectacle a public one at a charge of a penny a head for spectators.—London Post.

Telephone For Deaf Mutes.

A charitable device called a "deaf mutes' telephone" has been invented to enable those who cannot speak or hear to communicate rapidly with each other.

The "phone" comprises an electrical keyboard, somewhat like that of a typewriter. This keyboard is connected by wire with an electric signal lamp, which is the "talking machine" proper, and consists of thirty-six large delicate light globes, each with a large plate of glass in front of it.

German Naval Reserve.

Various proposals are under consideration for building up a German naval reserve, and one which stands much favored by the authorities is to establish a special naval reserve service of seven years, during which 35,000 men comprising the force would be obliged to go abroad with the active fleet for not less than four and a half months annually. It is argued that, though this would be expensive, the cost could be defrayed by calling out new recruits a month later every year.—Shipping Illustrated.

Sheep Eat Sheep.

Even the sheep at the antipodes have "developed the carnivorous habit," according to a Melbourne newspaper. They have taken to attacking and eating each other as well as rabbits, which are still very numerous in Australia.

While in spite of the multitudinous varieties of them that are trapped, lincensed and exported. So far the phenomenon of the carnivorous sheep has not been noticed outside the southern district of New South Wales, but the news will doubtless soon spread.

Alligator Bites.

The alligator skin business of the world is controlled by a firm in New York. N. J., which buys 80 to 90 per cent of the American production. It is estimated that the moccasins supply of 30,000 alligator skin per year from Columbia leads such a ready market in the United States that they have been traveling long purchased upon arrival at New York on presidential ships.

The shipping documents state before unloading the cargo.

"Do you mean that curl with the spots on her face?"

Overhead in a Street-Car. There's a lesson right there!

Little blenches of complexion, small scars, eruptions, spots, are not only unpleasant to the person afflicted, but are the first thing noticed by other people.

A Little Zam-Buk applied at night to spots, eruptions, scars of any kind will do wonders.

Zam-Buk is not a greasy preparation which will go on and on your dressing table. It is made from healing, herbal extracts and essences. Always pure, fresh and ready for use.

Definitely! Healing, nothing and antiseptic—all the time. Try it!

See all our druggists and stores.

Zam-Buk

Dr. Clark's Sweet Nitro Pills FOR THE KIDNEYS

These pills are the best for the kidneys. They are made from the most pure and reliable materials. They are the best for the kidneys. They are the best for the kidneys.

TREAT KIDNEY TROUBLE EARLY!

If you kidneys are not in good condition, you will find it difficult to keep your body in good health. You will find it difficult to keep your body in good health. You will find it difficult to keep your body in good health.

Human Hair-Nets.

The annual sale of human hair, according to the report of the American Chamber of Commerce at New York, is estimated at 12,000,000.

Hair-nets are made almost wholly in the houses of Albanian and Armenian peasants; the peculiar skill required to set hair has become in part hereditary.

The children begin first to tie the hair together, and end to make one long hair. Then with only a round piece of wood about six, long and three inches in diameter and a needle the hair is woven into a net.

Some of the farmers in Western Canada are complaining that not enough men are coming from the east to help them in harvesting their crops. They blame the railways in part for this, on the ground that the excursion rates are too high. Now the fare from Montreal to Winnipeg is \$10, and to Edmonton and to other points is proportionately as low. Do the farmers expect the railways to carry the workers for nothing?—Montreal Gazette.

Following the Hounds.

Smith was a great cyclist, but had not been four and a half months when staying with a sporting uncle he thought he would like to follow the hounds, which were to meet here, so he borrowed from a young relative a horse which was not much accustomed to the hunting field.

To make doubly sure he was not being started by a rabbit, darting from a clump of grass, broke into a gallop. The rider was not long forward on the horse's neck.

What are you doing, my lad, with your arm there? Jokingly he called out. I'm feeling for the brake, was the muffled reply, but I can't find it.

proof of it.

The oldest penitentiary officer had a magnificent sense of his own importance, and questioned the old lady with a zeal that would have done credit to the reporter in search of a scoop.

And now, he proceeded, drawing her up to his full height, "I don't know, tell me this. Have you ever thought of the receipt of a letter? Never, answered the applicant.

After that, he said, "I have been in the hands of the police? The lady bang her head, and the other smiled at such a silly question.

"Come, come on, tell me the truth, the whole truth, and nothing but the truth, be candid, and fling the woman with his steady eye.

"Well, replied the applicant, I don't see the truth, but the Government have any business to know, but I don't deny it. Girls will be girls, you know. But still, proudly he was a sergeant.

Chapeau of all Oils.—Considering the curative qualities of Dr. Thomas' Electric Oil, it is the cheapest of all country merchandise kept for sale. It is to be found in every drug store in Canada, from coast to coast, and in every country store in the West. So being easily procurable and extremely moderate in price, no one should be without a bottle of it.

An Elephant's Bath.

The elephant's bath taken a week or two before the rainy season requires the services of three men and considerable quantities of soap.

This treatment is necessary for a circus elephant, and if the animal is valuable one the proprietor of the circus does not consider the money which the elephant costs him as a liability in going over the immense body with soap, as over \$10 has to be spent on the soap, and the elephant's ears are especially carefully attended to.

When the soaping and drying are completed the elephant is well satisfied, and after that he is allowed to graze on the grass and to drink.

The final finishing touch is the most expensive part of the bath, as over \$10 has to be spent on the oil alone.

Beware of Ointments for Catarrh that Contain Mercury.

At a meeting was given notice of the sale of medicine, the value of which was estimated at \$100,000. The value of the medicine was estimated at \$100,000. The value of the medicine was estimated at \$100,000.

In illustration of the Greasy Glasgow Sunday, a letter told this story of the Glasgow Sunday.

Leaving his hotel in Glasgow one fine Sunday morning, when the sun was shining brightly, we were stopped along George Square a policeman.

He was complaining, saying he had a headache, and was in a bad way.

Small Boy—Ugh, do you know the difference between an elephant and a cat?

## More About The Loading Platform

The present generation of Western farmers will never know the difficulties and strains experienced by their predecessors in the earlier years, when no one could get a carload of grain shipped in bulk except by loading it through an elevator. The system forced the majority of farmers to sell their grain to the elevator owners at arbitrary prices, and oftentimes to submit to heavy dockage and other exactions, causing continual dissatisfaction. Now however the distribution of grain is changed by the Grain Act, and the use of the loading platform, provides facilities which enable the farmer to secure satisfactory treatment in the disposal of his grain, and the highest market prices at time of sale. Every farmer therefore, should more or less endeavor to use the loading platform in shipping his grain to the terminal elevators. It is the safeguard of the farmers' freedom in disposing of his grain, and the best advantage for himself. Farmers refrain from using the loading platform freely, it might result in the having grain shipped with heavier railway charges and elevator owners are strongly opposed to it. It is easy to understand why also people desire the loading platform facilities. The railway people on their part say it delays the loading of cars and helps to cause car shortages. This we know to be nonsense, because frequently after cars are loaded whether with grain, coal, lumber or other merchandise, they are sidetracked for days and even weeks instead of being promptly moved forward to destination, to the terminal elevators. It is the safeguard of the farmers' freedom in disposing of his grain, and the best advantage for himself. Farmers refrain from using the loading platform freely, it might result in the having grain shipped with heavier railway charges and elevator owners are strongly opposed to it.
